Nurseries, Landscape Design and Floristry**

31 March - 2 April 2015

International Exhibition Centre (IEC), Kiev, Ukraine

www.flowershortech-expo.com

(New website!)

Flowers & HorTech Ukraine; The leading Exhibition for Flower Business in Ukraine!

Flowers & HorTech Ukraine has been organised since 2006 and has developed into the only true international trade event for the entire horticultural sector of Ukraine and other CIS countries.

In 2015 the exhibition will be organised for the 9th time.

The current situation in Ukraine has disrupted trade between the Russian Federation and Ukraine; business and trade with Europe and Latin America, however, continues as normal and Ukraine remains to be a huge potential market with some 46 million people

The exhibition is being organised under the patronage of the Flower Council of Ukraine and each year, the exhibition brings together industry professionals from the horticultural sector from around the world.

During the 2013 edition some 100 companies from 15 countries worldwide have chosen Flowers & HorTech Ukraine as platform to strengthen their business in Ukraine and abroad.

Now is the time to be present at this one and only platform for floriculture in Ukraine and establish a solid basis for your business in the coming years!
